Refinement is in the attention to detail. And at Bowker Collection that doesn't end at architecture and design. What if you could have your own personal wine specialist or a private chef on call?  
Or both?

And with services like personal assistance, the Bowker Electric Bikes and Bowker Electric Car we've created an array of extras that sets Bowker Collection apart.  
It's amenities, redefined.

The service offers two bikes and helmets as well as a bike garage for tuning your own bike. And when you want to just take it all in instead of pedalling, the bike converts to electric mode. Opt for a bike instead of a car. Electric Bikes may turn out to be your preferred way of getting from point A to B.
